

Dear Professor,

Greetings from Infosys.

We are pleased to invite your esteemed institution to participate in HackWithInfy 2026, the eighth edition of Infosys' flagship national level coding competition. HackWithInfy is a marquee initiative aimed at inspiring, engaging, and recognizing high potential engineering talent across the country, while offering top performers a direct pathway to rewarding career opportunities with Infosys.

Over the years, HackWithInfy has emerged as a trusted platform where students showcase their programming excellence, compete with peers nationwide, and gain exposure to industry relevant problem solving aligned with real world technology challenges.

Eligibility

HackWithInfy 2026 is open to students from the Batch of 2027 enrolled in the following programs:

B.E. / B.Tech	M.E. / M.Tech	MS (Research)	MCA	Dual Degree programs
---------------	---------------	---------------	-----	----------------------

Participation is extended to select partner institutions, and we are delighted to include your campus as part of this initiative.

Why HackWithInfy 2026?

Showcase their programming and problem-solving capabilities on a national platform

Compete for cash prizes worth INR 5.5 lakhs

Gain direct entry into exclusive career opportunities at Infosys

Experience industry-grade coding standards and real-world technology challenges

Competition Structure

Round 1

March 2026
Virtual Mode

- Online, individual assessment conducted on the Infosys platform
- Students must attempt the test within their allotted time slot
- Supported programming languages: C, C++, C#, Python, Java, JavaScript, TypeScript, Go

Round 2

April 2026
Physical Mode

- Candidates qualifying Round 1 advance to this stage
- Conducted in physical mode at designated centers
- Supported programming languages remain the same as Round 1
- All students clearing Round 2 will be shortlisted for interviews with Infosys

Final Round

Physical Mode

- The top 100 scorers from Round 2 will be invited to an Infosys campus or a 40-hour live hackathon, competing in teams of 3-5 finalists
- The top three winning teams will receive cash prizes
- One standout participant will be awarded the title "Champion of Champions", along with a cash prize of INR 50,000

Compensation structure for candidates that are extended an offer to join Infosys, post clearing interview rounds:

Digital Specialist Engineer

INR 7 LPA

6.25 LPA + 75,000 INR
Joining Bonus

Specialist Programmer Level 1

INR 11 LPA

10 LPA + 1 Lakh INR
Joining Bonus

Specialist Programmer Level 2

INR 16 LPA

Specialist Programmer Level 3

INR 21 LPA

Steps of the registration process for the candidates

Step 1

Through the college Training and Placement officers in the attached format (PFA student registration sheet)

Step 2

Filling in the registration survey floated by us at the later stage

Disclaimer: By submitting student details, the institution confirms that all necessary student consent has been obtained for Infosys to use the information solely for the purpose of registration and participation in HackWithInfy 2026.

We look forward to your continued support in empowering young innovators and enabling them to embark on a journey of learning, competition, and career opportunity with Infosys.

Should you require any clarification or assistance, please feel free to reach out.

Warm regards,

Team Infosys
